Clicker User Conference

Featuring Derek Bruff (Vanderbilt University) and University of Iowa faculty members

Student response systems can be an important feature of the engaged learning toolkit. We will share best practices for using "clickers" to engage students and assess their learning. The conference also will introduce the UI's new clicker systems, TurningPoint and TurningPoint AnyWhere. For novice and experienced users.

Fall '09 NExTT Workshops now available for Registration

NExTT stands for "New Experiences with Teaching Technology." This week-long series of workshops is held in January and August for instructors and instructional support staff. Participants can choose to register for only those sessions they wish to attend. Sessions are created and presented with the philosophy that you will get more out of them if you have more hands-on time to work.
